

Made-To-Order (MTO) Sheaves

Manufactured by the "Large Sheave Experts" in the USA

TB Wood's has been pouring quality iron since 1857 with a maximum capacity of 107-inch diameter. Experienced Application Engineers provide optimum designs and specific application selections. Integrated foundry with machining enables superior response time for made-to-order products.

Special Made-to-Order capabilities include:

- Special diameters to achieve optimum speeds
- High-grade of cast iron or ductile iron for high speeds
- Private-branded sheaves with OEM brands/part numbers
- Special hubs, grooves and diameters
- Flywheels

MTOs are quoted within 24 hours and delivered in 3-4 weeks. "Fastrac" delivery available for breakdown situations.
